

Chain of Responsibility (CoR) legislation extends the general liability for offences to road freight consignors, receivers, packers and loaders. Rather than pursue the 'soft target' on the roadside, truck drivers and operators, authorities can investigate along the supply chain and up and down the corporate chain of command. The days of 'all care and no responsibility' are over.

TLIF0002 ADMINISTER CHAIN OF RESPONSIBILITY POLICIES AND PROCEDURES (CoR LEVEL 2)

The CoR Level 2 Course relates to managing work to ensure Chain of Responsibility compliance. It includes identifying and interpreting relevant regulations and ensuring workplace Chain of Responsibility systems understood and adhered to. Participants actively work through how to implement their documents, policies and procedures.

WHO SHOULD COMPLETE THIS COURSE?

CoR legislation extends responsibilities to anyone whose actions, inactions or demands can put driver's lives or other lives at risk. Any party who has control in the transport chain can be held responsible and may be legally liable. If you are a frontline manager or supervisor of schedulers, packers, loaders or drivers or you influence any of these roles you should complete this course.

WHAT ARE THE COURSE OBJECTIVES?

- Explain the CoR Framework of policies, procedures and tools;
- Implement existing policies, procedures and tools in your workplace;
- Review and update workplace procedures and tools to ensure they meet CoR requirements;
- Complete the required CoR-related records, analysis, documentation and reports; and
- Identify impacted roles within your area and communicate their responsibilities to them.

WHAT DOES THE COURSE INVOLVE?

This training course includes 6 modules and 4 assessments that are a combination of written and workplace-based (written, verbal, observation report and practical). It will take approximately 6-8 hours to complete the course and assessments (observations are required to take place in the workplace over a period of 4 weeks after the course to enable completion and submission of the observation report).

WHAT MAKES THIS COURSE DIFFERENT?

This course will introduce the CoR Framework and explore practical examples of the suite of policies, procedures and tools that a frontline manager or supervisor would implement to support CoR in the workplace. You have the option to refer to example documents from your workplace throughout the course.

WOULD YOU LIKE THE TRAINING DELIVERED ONSITE AT YOUR ORGANISATION?

If you prefer, we have qualified trainers that can deliver the Nationally Recognised CoR Level 2 onsite at your organisation. Please contact us for pricing options of onsite delivery.
